

# Echo & The Bunnymen, Over The Wall

The man at the back has a question  
His tongue's involved with solutions  
But the monkey on my back  
Won't stop laughing

Over the wall  
Hand in hand  
Over the wall  
Watch us fall

There's something to be said for you  
And your hopes of higher ruling  
But the slug on my neck  
Won't stop chewing

Over the wall  
Hand in hand  
Over the wall  
Watch us fall

I'm walking in the rain  
To end this misery  
I'm walking in the rain  
To celebrate this misery  
What's that you say?  
Speak up, I can't hear you  
What do you say?  
I couldn't hear you

Over the wall  
Hand in hand  
Over the wall  
Watch us fall

Out on the road coast to coast  
Out on the road coast to coast

I'm over the wall  
I'm over the wall  
I'm over the wall  
Come over the wall  
Come over the wall

I can't sleep at night  
How I wish you'd hold me tight  
I can't sleep at night  
Come on and hold me tight...

I can't sleep at night  
How I wish you'd hold me tight  
Come on and hold me tight

I can't sleep at night  
How I wish you'd hold me tight  
Come on and hold me tight  
Come on and hold me tight

I can't sleep at night  
How I wish you'd hold me tight  
Hold me tight  
Hold me tight  
Hold me tight  
To my logical limit  
To the logical limit

To my logical limit  
To the logical limit
