

Echobelly, Call Me Names

I say i've been meaning to move your way,
I hope that no one will make fun of me,
I go live in a new society, I wanna live in it, live in it,
Wanna learn, wanna live, live wanna learn,
Wanna live it it, live in it, oh i'm ready to learn.

I don't know, is it the same for everyone,
Maybe that i've done something wrong,
Why do they call me names.

Outside, will you come out and play with me,
I've been scrubbing at my skin you see,
But the colour still remains on me,
I wanna be the same, be the same,
Wanna be, wanna be the same as you,
Wanna be the same, be the same,
Oh i'm ready to go.

I don't know, is it the same for everyone,
Maybe that i've done something wrong,
Why do they call me names.

Why do you call me names X4
Call me names X11
Why do you call me names X2
Why, call me names
Oh why, call me names.
