

Echobelly, Great Things

I wanna do Great things
I don't wanna compromise
I wanna know what love is
I wanna know everything

I wanna do Great things
I don't wanna compromise
I wanna know what love is
Is it something I do to myself

All is fair in love and war or so they say or so the saying goes
I have seen more broken hearts than you can count the bullets
in the war,
oh what do I know theres got to be so much I don't know...

I wanna do Great things
I don't wanna compromise
I wanna know what love is
I wanna try everything

I wanna do Great things
I don't wanna compromise
I wanna know what love is
Is it something I do to myself
Something I do to myself

What is life apart from memories of dreams
and friendships you have known,
and smells of childhood tales
Contemplating clothes that you have worn
Oh what do I know, theres gotta be so much I don't know

chorus

Never wanted many things,
Except the chance to learn,
From my mistakes
Funny how you never learn,
But know them when they,
Come around again,
Oh what do I know,
There's gotta be so much I don't know
