

# Echosmith, Let's Love

I'm just a girl from the city  
You came to me  
Like Cavalry  
Now all I want is  
To hold you now

I've been saving my soul  
For someone like you

Let's Love  
While We're Young  
So Let's Love  
Before we've even begun  
Oh Darling  
We'll be fine  
So Let's Love  
While we're young

You were the girl  
That came with the sunrise  
Long brown hair  
And emerald eyes

You were the one  
That came with the sunrise  
Dark brown hair  
And emerald eyes

Now I can't think  
Of a day without you  
Now all I want is  
To hold you now

I've been saving my soul  
For someone like you

Let's Love  
While We're Young  
So Let's Love  
Before we've even begun  
Oh Darling  
We'll be fine  
So Let's Love  
While we're young

Let's Love  
While We're Young  
So Let's Love  
Before we've even begun  
Oh Darling  
We'll be fine  
So Let's Love  
While we're young
