

# Econoline Crush, All That You Are (x3)

If I said it, I meant it  
I'm not really demented  
I'm just saying it's been said again and again  
Not that I'm all that grounded  
I'm already dumbfounded  
I'm a liar believe me, baby

Well it's all that you are  
You're just one shining star  
Well that's all that you are

Maybe everything's changed  
And maybe I stayed the same  
What does it matter to me now, anyway  
If I ever regret it  
If I'm ever repentant  
Karma sings and we'll dance the dance, baby

Well that's all that you are  
You're just one shining star  
Well it's all that you are  
You're just one shining star

Do do do do yeah yeah yeah (x3)

If I said it, I meant it  
I'm not really demented  
I'm just saying it's been said again and again  
Not that I'm all that grounded  
I'm already dumbfounded  
I'm a liar believe me, baby

Well it's all that you are  
You're just one shining star  
Well it's all that you are  
You're just one shining star  
(It's all that you are)  
Well it's all that you are  
You're just one shining star
