

Ed Gein, You Suck At Life And I'm Not Talking About

You want to see me fail
You want to pump my dreams full of lead
And put their blood soaked corpses
On public display with a sign around their neck that says
This is what happens when you dont do things our way
But your ways aren't for me
And when you realize you have wasted your life away
I'll be there, ready to hang a sign around your neck that says
I suck at life
