

# Eddie From Ohio, Fly

I'm kinda small for my age  
But I've learned to be quiet  
Did you know if you're quiet enough  
You'll become invisible, indivisible

Ours is a family of three  
There's my mom dad and me  
I'm the only one who's quiet  
I wish they'd shut up and try it

(Chorus)  
But don't underestimate me  
I'm seven years tall  
And all I need is a cape and a mask  
So I can fly outta here  
I can fly outta here  
I can fly

I'm kinda smart for my age  
It's only a gift if you use it  
It don't choose you, you must choose it  
But I choose ordinary  
Yes I'm a very ordinary canary

And my legs don't work too well  
When I was two and a half I fell  
And now I'm just a slow poke  
Mama says keep that an inside joke

(Chorus)

There's no one in this world  
Who can tell I'm under cover  
They'll have to tell each other  
One day  
One day  
I knew him when

So don't underestimate me  
'Cause I am seven years tall  
And all I need is a cape and a mask  
So I can fly outta here  
I can fly outta here  
I can fly (repeated)
