Eddie Reader, Clear

I do believe this road's for going I'll be on it soon enough My baby wants a mother So do I when it's all too tough I do believe there's something coming Hope it wake us up The big hand's pointing this way Sometimes we love too much It's clear, we're here, it's clear See me old and staggered Or young and swaggering Where we're going, where we've been When all that matters is in between It's clear, we're here, it's clear All that's sense is lost in static We're here against our will Hush there's time and plenty of it Standing still I do believe there's always better Then again there's always worse It's clear, we're here, it's clear Yeah..... we're here
