

Eddy Arnold, Cause I Got You

If a girl could be made of clay then I could mould that girl my way
I got her picture in my mind but there's no need to waste my time
Cause I got you and God knew what to do when he made you

Come the day that you were born an angel took an earthly form
Cause if you take one little girl add all the wonders of the world
Then I'd have you and God knew what to do when he made you

God created the seven wonders in his usual style
Wrapped them up in the piece of sunshine put them in your smile
So if the sun don't ever shine I don't worry cause I got mine
When I got you and God knew what to do when he made you

God created the seven wonders...
