

Eddy Arnold, There's No Wings On My Angel

There's no wings on my angel cause she's not from heaven above
No halo on my angel but she's still the one that I love
I know that she flirts I know she's untrue
But I love her so so what can I do
There's no wings on my angel but she's still an angel to me
[fiddle - guitar - steel]
There's no wings on my angel the devil is there in her eyes
No gold crown on my angel she's foolin' the one with her lies
I know love is blind but still I can see
That my love for her means sweet misery
There's no wings on my angel but she's still an angel to me
