

Eddy Arnold, When There's A Fire In Your Heart

When there's a fire in your heart break the glass sound the alarm
Call on me I'll be there
Instant service speedy fast I was your first I'll be your last
No matter what you have in between
When there's a fire in your heart break the glass sound the alarm
When he's not all he seems
Instant service speedy fast I was your first I'll be your last
No matter who you have in between

There's been hearts spells in close spells ever since we met
I've seen your small fires your big fires but I won't give 'em yet
Oh someday you'll yearn for your heart's gonna burn for that old familiar glow
You'll be burned out on smoke out and come back to me I know

When there's a fire in your heart...
[horns]
So I'm hanging on your sea you'll come running back to me
No matter who you have in between
