

Eddy Arnold, Worst Night Of My Life

Last night was the worst that I've gone through
Cause last night was the first without
I never felt so left alone
Called your house but you weren't home
Last night was the worst of my life

I've known your sweet love for so long
So last night I tried to think what went wrong
I counted stars tried to forget
It's no use you're not home yet
Yeah last night was the worst of my life

Maybe a new love I should find
But I can't with you still on my mind
They're telling me to forget you
Easy to say but hard to do
Last night was the worst of my life
