## Eden's Bridge, Fairweather Friend

When Im down youre always missing When Im fine you take your share When things go bad youre best forgotten I could think that you dont care Walking in circles Were going nowhere now it seems Nothing is certain Of what becomes of you and me

Fair weather friend of mine Fair weather friend of mine Fair weather friend of mine You know youre no good for me

It all came home a week last Sunday Things youd said and things Id seen That when I live a week of Wednesdays You will be no good for me

Theres something missing And what it is is what I need Im going searching For a friend wholl never leave me
