Eden's Bridge, Seize The Day

Seize the day, seize the day
Seize the moment and turn it your way
Seize the day, seize the day
Seize the moment and turn it your way
You know the TV channels
You watch as life passes by
You know youre drifting
But arent you just wasting your time?

Why live your life so slowly? And watch the world rolling by You wait, its harder So stand up and give it a try

And so you face the future
And will you face it alone?
Remember what you reap
Relies on the sed you have sown
Will you lack for nothing
Or will the harvest be poor
There is no time to waste
Its time to step out and be sure

Dont put off til tomorrow Strike while the sun is still high One day the chance will go Stand up and spark up your life
