

# Editors, Camera

Keep close to me now  
I'll be your guide  
Once we have black hearts  
Then love dies

Look at us  
Through the lens of a camera  
Does it remove  
All of our pain?

If we run  
They'll look in the back room  
Where we hide  
All of our feelings

I just close my eyes as you walk out

I'll keep your eyes wide open tonight  
Keep the car on the road now  
Feel love bite

Look at us  
Through the lens of a camera  
Does it remove  
All of our pain?

If we run  
They'll look in the back room  
Where we hide  
All of our feelings

I just close my eyes as you walk out

You fall from grace  
We fall with such grace  
You fall from grace  
We fall with such grace  
You fall from grace  
We fall with such grace  
You fall from grace  
We fall with such grace

Look at us  
Through the lens of a camera  
Does it remove  
All of our pain?

If we run  
They'll look in the back room  
Where we hide  
All of our secrets

I just close my eyes as you walk  
I just close my eyes as you walk  
I just close my eyes as you walk  
I just close my eyes as you walk  
I just close my eyes as you walk  
I just close my eyes as you walk out
