

# Editors, I Buried The Devil

Come on, I'll believe it when I see it  
I can feel my body working  
I can hear my body healing

Come on, there is no one there to hurt us  
There is no one that can touch us  
The world's a safer place

Don't go out, on your own, tonight  
Don't go out, on your own, tonight

Don't go out  
Don't go out  
Don't go out  
Don't go out tonight

Come on, there is no one there to hurt me  
There is no one there to touch me  
The world is not a safer place

Don't go out, on your own, tonight  
Don't go out, on your own, tonight

Don't go out  
Don't go out  
Don't go out  
Don't go out tonight

Don't go out, on your own, tonight  
Don't go out, on your own, tonight  
Don't go out  
Don't go out  
Don't go out  
Don't go out tonight
