

# Editors, Vibe

Who lights a cigarette in that way?  
I bet you are immortal  
Razor eyes, mouthing ditties, staring far away  
A penny, what you thinking?

Just because you feel it  
Don't forget where your vibe comes from  
It's coming from a cold, hard night  
Just because you feel it  
Don't forget where your vibe comes from  
It's coming from a cold, hard night

These are the days, it's our time, not a masquerade  
You're never getting older  
Why must I run? Must I misbehave  
You got me in a corner

Just because you feel it  
Don't forget where your vibe comes from  
It's coming from a cold, hard night  
Just because you feel it  
Don't forget where your vibe comes from  
It's coming from a cold, hard night

When we all get left behind  
All our misses on my mind  
When we get turned upside down  
Stare up at me from the ground

Just because you feel it  
Don't forget where your vibe comes from
