

# Edna's Goldfish, Gone Away

Where did my friends go?

They went so far away

I asked them why but they said they could not stay

But when they came back I noticed that my friends had changed

I was up so high

with my feelings but I fell back to the floor

And when I came to I noticed, that my friend's they

wanted nothing more to do with me...

Why have I gone away?

Why did I go away?
