

# Edna's Goldfish, Gone Away

Where did my friends go?  
They went so far away  
I asked them why but they said they could not stay  
But when they came back I noticed that my friends had changed

I was up so high  
with my feelings but I fell back to the floor  
And when I came to I noticed, that my friend's they  
wanted nothing more to do with me...

Why have I gone away?  
Why did I go away?
