

Edward, Let It Pour Down Rain

You know we've got this problem
I can't make it to the blue
There is no sunshine for us
Without love what would we do

I can't break this curse
Every turn is a turn for the worse
I won't abandon you
but we know what to do in this rain
CH
Please let it pour down rain
Let the rain pour down

She likes thunder and lightning
I love the power
its frightening
She only kisses in the rain
She loves me when it pouring
she shakes when the storm is roaring
The love we make only happens in the storm
So please let it pour down rain....
Ch
