

Edwin, Surround Me

Underneath my skin there's a tiger
Consumed from within like a spider
Squeeze tighter

Surround me
Sedate me with desire
Drown me
Make it hard to breathe out

Do you feel what I feel in the starlight
Awake to the sound
But my feet don't touch the ground

Surround me
Sedate me with desire
Drown me
Make it hard to breathe out
Ya found me standing in the fire
Surround me
Make it hard to breathe out

So take me after the show
To the red fish sunrise
Caught in the afterglow and that look in your eyes
Got to be drunk and stoned

Underneath my skin there's a tiger

Surround me
Sedate me with desire
Drown me
Make it hard to breathe out
You found me standing in the fire
Surround me
Hard to breathe out
You found me
Hard to freak out
Drown me
Hard to freak out
