

# Edwyn Collins, Shouldn't Have Done That

I spent half the morning lying in bed  
I should have quit while I was still ahead  
Instead I stumbled out I took the air  
I should have stayed home, should've washed my hair  
Should've done that  
Should've, should've  
Should've done that  
There is a bar where I like to drink  
I should've stopped as I passed the brink  
There is a girl and she looks sublime  
You should've guessed I wanna make her mine  
Should've done that  
One little piggy had roast beef  
Another little piggy had none  
One little piggy went to market  
That little piggy should've stayed at home  
Each time I saw her my heart would melt  
I should have told her 'bout the way I felt  
Instead I stumbled home, I took to bed  
I have to quit while I'm still ahead  
Should've done that
