

eels, Everything's Gonna Be Cool This Christmas

Remember last year when you were on your own
you swore the spirit couldn't be found
december rolled around and you were counting on it to roll out

but everything's gonna be cool this christmas
everything's gonna be cool this christmas
everything's gonna be cool this christmas

well everybody's waiting for you down at the house
the tree is looking so inspired
there's a yuletide groove waiting for you to move
come on and throw another log on the fire

and everything's gonna be cool this christmas
everything's gonna be cool this christmas
everything's gonna be cool this christmas

baby Jesus, born to rock

as the days go by, the more that we need friends
and the harder they are to find
if I could have a friend like you in my life
then I guess I'd be doing just fine

and everything's gonna be cool this christmas
everything's gonna be cool this christmas
everything's gonna be cool this christmas
