eels, The Medication Is Wearing Off

See this watch she gave me? Well it still ticks away The days I'm claiming back for me

The medication's wearing off Gonna hurt not a little, a lot Keep on tickin' you're not lickin' me

Step on a crack break your mother's heart Red light green light black Suicide e-mail do not delete Plug it back in the jack Start to be what they want you to be And you see yourself as they see you

Sunrise at the corner of Sunset and Alvarado I think what the hell do I do now Watch the day disintegrate So I can stay up late and wait

See this watch she gave me? Well it still ticks away
