eels, The Stars Shine In The Sky Tonight

I can't live in a world that you have left behind Seen a lot, been through too much But this is where i draw the line

It's not where you're coming from It's where you're going to And i just wanna go with you

December is a lonely month In a year of lonely days It's hard to tell which way is up Or down or out Or through the haze

People cheat and people lie While you just watch it all go by Counting days until you die

The stars shine in the sky tonight Like a path beyond the grave When you wish upon that star There's two of us you need to save

It's not where you're coming from It's where you're going to And i just wanna go with you
