

# Effigy, I Remember Nothing

I want to see you with tears in your eyes  
You make me petty, sold by your lies, lies, lies  
I don't like the shoes that you wear, the air you breathe, the cut of your  
hair

I remember nothing  
Each fossil sends me from time into mine  
A petty revulsion that I cannot hide  
I don't like the way you fell down  
It ruins my story, twists it around

I remember nothing  
We don't have any stories to tell  
It's always the same, we take what we find  
Don't go down south they don't like your kind  
Inside, inside, inside, and you're out of time

I remember nothing  
Maybe life is over in the place we have to go  
Nothing left to know, nothing left to know
