Egypt Central, You Make Me Sick

I used to think that this was perfect, and wish that it was never ending But those days are gone forever, It's something I'm not missing There's a force there's a voice, in my head telling me to think About the times that you were cruel and mean And I don't care if you walk away I'm here to stay and you need to hear

(Chorus)
You make me sick!
But I love what we're doing here
You make me sick!
And I can't be the only one

You make me sick!
But I love what we're doing here
You make me sick!
And I can't be the only one

I have to take advantage, before the moment passes by It's so hard to manage, the ups and downs of your life Someone help someone speak before I start to scream out, anything to break the silence You're holding me back confined by doubt

(Chorus)
You make me sick!
But I love what we're doing here
You make me sick!
And I can't be the only one

You make me sick!
But I love what we're doing here
You make me sick!
And I can't be the only one

(Bridge)
Cause I need you,
cause I need you here with me
When it falls through,
and I'm down upon my knees

There's a force there's a voice in my head telling me to
Think about everything last time I believed,
now I realize!

(Chorus)
You make me sick!
But I love what we're doing here
You make me sick!
And I can't be the only one

You make me sick!
But I love what we're doing here
You make me sick!
And I can't be the only one

4x SICK!(7) YOU MAKE ME SICK!
