

Eiffel 65, I Don't Wanna Lose

<lyrics>

Space

House of

Black house of lights

House of noise

You've never heard

Full of vacuum and crowded of shadows

Space

Like a watch with no time

Like a book without an end

An equation and thousands solutions

I don't wanna lose my belief now

That space

Somewhere has a limit beyond

What I see and what I breathe

I live

I don't wanna lose my belief now

That space

Somewhere has an end and beyond

Who knows what we will find out there

Somewhere

Space

House of

Black house of lights

House of noise

You've never heard

Full of vacuum and crowded of shadows

Space

Like a watch with no time

Like a book without an end

An equation and thousands solutions

I don't wanna lose my belief now

That space

Somewhere has a limit beyond

What I see and what I breathe

I live

I don't wanna lose my belief now

That space

Somewhere has an end and beyond

Who knows what we will find out there

Somewhere

I don't wanna lose my belief now

That space

Somewhere has an end and beyond

Who knows what we will find out there

Somewhere
