

Ektomorf, Always Believe In Your Self

There's a chance to get out of the shit
You only need to will and to fucking fight
Never say it doesn't work only with money
That isn't all, you need a strong will to this

Always believe in yourself
Yourself

There are a lot who only who fall apart at once
Some who later, then why did they begin
You have to stand up whatever comes
Otherwise, there is the hole

Always believe in yourself
Yourself

Always ahead ahead never turn back
Always ahead ahead never turn back
Always ahead never turn back
Always ahead never turn back

Cause if you look back, fuck it
You will rot in the hole
Always ahead ahead never turn back
Always ahead ahead never turn back
