

Elbow, Presuming Ed (Rest Easy)

My brother fear is only natural
You need to chill your fucking bones

Lay her down, drink this ...
while you can

whisper rest easy
there's a belly full of life
watch her she's dreaming
of a belly full of life
right there on the pillow

this is why we are here
rest easy

You will feel Christ-like
When it's breathing in and out
Right there on the pillow

This is why we are here
Rest easy
This is why we are here

This is why we are here
Rest easy
