

# Elbow, Station Approach

I haven't been myself of late  
I haven't slept for several days  
But coming home I feel like I  
Designed these buildings I walk by

You know you drive me up the wall  
I need to see your face that's all  
You little sod, I love your eyes  
Be everything to me tonight  
Be everything to me tonight

I never know what I want but I know when I'm low that I  
I need to be in the town where they know what I'm like and don't mind  
(repeat)

The streets are full of Goths and Greeks  
I haven't seen my mum for weeks  
But coming home I feel like I  
Designed these buildings I walk by

You know you drive me up the wall  
I need to see your face that's all  
You little sod, I love your eyes  
Be everything to me tonight  
Be everything to me tonight
