

# Electric Six, Devil Nights

Devil nights, devil nights  
Nights with the devil  
Driving around the city

Everything is wrong, but you know it feels right  
Spending all your money on the electric lights  
Handing over your last dollar just to make the devil see  
Drinking all the drinks inside the devil limousine

Devil nights, devil nights  
Nights with the devil  
Driving around the city  
Nights with the devil  
Driving around the city

Sure as the sun gonna' rise tonight  
You owe me money  
Sure as the White House is totally white  
You owe me money

Rolling up into the club, just to drop the devil mixes  
branding all the young girls with triple sixes

Nights with the devil,  
Driving around the city,  
Nights with the devil,  
Driving around the city,

Sure as the sun gonna' rise tonight  
You owe me money  
Sure as the White House is totally white  
You owe me money

Devil Nights,

Dance! 6x

Sure as the White House is totally white  
You owe me money!
