

Electric Six, Don't Be Afraid Of The Robot

You wanna go where the bad girls go
You wanna see what my love can be
And now you're beggin' on your knees
little child, little sister
Don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love

You wanna go where you might get hurt
feel my hand moving up your skirt
and now you're getting kind of high
little mama, little darling
Don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love

Turn those machines back on
Turn those machines back on
Turn those machines back on
Turn those machines back on
Oh, don't be afraid of the robot
Don't be afraid of the robot
Don't be afraid of my love
