## Electric Six, Don't Be Afraid Of The Robot

You wanna go where the bad girls go You wanna see what my love can be And now you're beggin' on your knees little child, little sister Don't be afraid of the robot Don't be afraid of my love

You wanna go where you might get hurt feel my hand moving up your skirt and now you're getting kind of high little mama, little darling Don't be afraid of the robot Don't be afraid of my love

Turn those machines back on Oh, don't be afraid of the robot Don't be afraid of the robot Don't be afraid of my love
