

Electric Soft Parade, Headacheville

Turn on the gaze,
Turn on the night,
The end
Is just around the corner

Why was I looking back,
Why was I looking back?
Looking for a hole in something you said

Turn on the smile,
Turn on the grin,
The end
Is just about to begin,
In truth i never really understood,
Why was I looking back,
Why was I looking back?

Turn on the gaze,
Turn on the night,
The end
Is just around the corner
Why was I looking back,
Why was I looking back?
Looking for a hole in something you said

In time,
you'll see,
the way they bend the truth,
it's hard to take,
when people need convincing

Turn on the gaze,
Turn on the night,
The end
Is just around the corner
Why was I looking back,
Why was I looking back?
Looking for a hole in something you said
