

Electrosy, Naked

I used to think that loneliness, was something only I did best
Now I guess I've got to think again
Our energies collide inside like two demented butterflies
Fluttering and fighting on the wind

I've got to go again
Beause I ain't got second skin

Because I'm naked, and you skin me to the bone
Beause I'm naked, all f**ked up and all alone
But I'm naked, no one hears me when I call, or stands near me when I fall
Because I'm naked

I want to go where I fit in, it's somewhere I don't think I've been
I guess I'll only find it when I die
My mind's a haven where I rest, I havn't time to brave distress

I guess that's why it's better when I lie

Because I'm naked, and you skin me to the bone
Because I'm naked, all f**ked up and all alone
But I'm naked, no one hears me when I call, or stands near me when I fall
Because I'm naked

Give me some love I don't know what I'm doing
Tell me some love and I know where I'm going

Because I'm naked, and you skin me to the bone
Because I'm naked, all f**ked up and all alone
But I'm naked, no one hears me when I call, or stands near me when I fall
Because I'm naked
