# Elefant, Make Up

MAKE UP

You finally take your make up off, I like your eyes You finally take your lipstick off, I like your smile

Get up and dance around the room my eyes are on you Get up and dance around the room my eyes are on you

## Chorus

I see you smile and turn your head You lift your arms and grab the bed I don't know what you're thinking now I just hope you're feelin how, much love I have for you Whoa whoa whoa

Your Spanish eyes are deep, I've fallen down Your lips are so sweet, the night is perfect take off your dress And get up and dance around the room a little more We get up and dance around the room in love

#### Chorus

I see you smile and turn your head You lift your arms and grab the bed I don't know what you're thinking now I just hope you're feelin how much love I have for you Woah woah woah

## **Kiss**

You taste like candy You taste like a little piece of candy NOW THAT I MISS HER When I first saw her, I knew that I loved her When I said goodbye, I knew that I lost her Now that I miss her, I wish I could kiss her And tell her c'mon girl, you know that I need you

## Chorus

And without her, it all feels the same And without her, you got no one else to blame

I went to the movies and stared at the big screen I thought that I saw her looking right at me

# Chorus

And without her, it all feels the same And without her, you got no one else to blame But yourself, but yourself

And all I can do is just write a song about her And hope that one day, hope that one day She turns around, she turns around

I hear the phone ringing
I know that she's calling
I hear her voice singing
And this is her answer MISFIT
Picked a girl up at the trainstop where I live
Took a drive along the beach by the ocean
Talk about the dreams we had while we were growing old
Wrote a poem on the back of your shoulder

# Chorus

Tell me your name, tell me your story Cause I'm into it, runnin' through life like a misfit

I will start again

Give the dog a bone to chew as I drive around Wrote this song last night while I was sober

## Chorus

Tell me your name, tell me a story Cause I'm into it, runnin' through life like a misfit

And I kept on driving I will start again

#### Chorus

Tell me your name, tell me a story Cause I'm into it, runnin' through life like a misfit BOKKIE Jumping with your eyes closed, Landing on the sun Being young and beautiful, In love with no one But yourself

## Chorus

And people tell you you're pretty yeah Your smile drives them crazy lady You wanna slowly fade away, but you can't, So you stay

Playing for the public, Making them love you You're so cruel

#### Chorus

And people tell you you're pretty yeah Your smile drives them crazy lady You wanna slowly fade away, but you can't So you stay with me, with me, Bokkie

I'm on an island for two

## Chorus

And people tell tell you you're pretty yeah Your smile drives them crazy lady You wanna slowly fade away, but you can't So you stay with me TONIGHT LET'S DANCE She was wearing her favorite dress She was waving a blue handkerchief She was laughing aloud in the corner of the room But she was dancing alone

## Chorus

So I walked up to her, grabbed her arms to show the world Tonight we'll dance like we're in love

She was standing beneath the chandelier I offered her chocolate and some beer She said no, I said why, she said no, I said why And stayed dancing alone

## Chorus

So I walked up to her, grabbed her arms to show the world Tonight we'll dance like we're in love

I look down on her She looks up at me All I want is all her love All I want is all her love

## Chorus

Tonight we'll dance
Tonight we'll dance
Tonight we'll dance
All night long like we were in love STATIC ON CHANNEL 4
Moon and stars above us shine
Everybody knows you're mine
Static on the channel 4
Television radio, hold me close when you are cold
Now I've got to get us home, everybody knows you're stoned

## Chorus

And when you hear me calling You will turn away and see me standing there Waving my old colors, lifting up my arms And you will understand

Kiss me on the lips again Millions are just tuning in Sattelites begin to spin Listen close and let me in

# Chorus

And when you hear me calling You will turn around and see me standing there Waving my old colors, lifting up my arms And you will understand

You will understand SUNLIGHT MAKES ME FEEL PARANOID The sunlight's making me feel paranoid I look outside and see the world at war The people walk to work like they're alone I sit in silence staring at the phone

#### Chorus

And it helps me breathe, And it helps me see

I cover up my eyes to block the light I cover up my eyes and try to fight, the fall

# Chorus

And it helps, When I come down, And it helps

The sunlight's making me feel paranoid I look outside and see the world at war The people laugh and play like they're alone They're watching us while we sleep in our homes I never, I never meant to shut you out All I know and all I need is you I never, I never meant to cause alarm

All I know and all I need and all I got is gonna bleed

## Chorus

It helps, when I come down, It helps, when I come down

It helps me breathe, When I come down ANNIE
The smell of the ocean on her skin
The rags of her dress blowing in the wind A chorus of angels on the boardwalk
They know what you did in the dark

#### Chorus

I never meant to hurt you Annie Leave you standing with the gun Come and play with me little Annie Lose yourself, lose yourself

I lay her back on the cold sand And wipe the blood from her hand I fix her hair and kiss her chest The secrets die in her breathe

## Chorus

I never meant to hurt you Annie Leave you standing with the gun Come and play with me little Annie Lose yourself, lose yourself

Oh no, her hands are cold
Oh no, I played with her soul
All night again
I'm alone LOVE
I want the girl all dressed in white
She turns and says hello
She changes colors like a bird
I grab her wings and fly away
She takes me high and leaves me there
I never want that down

#### Chorus

Love, It's a beautiful place, It's a beautiful taste Where I am now, where I am now, And I belong

The gentle high is all to blame I cried for seven days I feel myself losing control To all the voices in my soul There is the girl in white again I need the sugar from her hand

## Chorus

Love, It's a beautiful place, It's a beautiful taste Where I am now, where I am now, And I belong

And it's such a wonderful way, We're making love right now And it's such a wonderful way, you feel me up inside

#### Chorus

Love, It's a beautiful place, It's a beautiful taste Where I am now, where I am now, And I belong ESTER Ester why do you look all blue What did I say to you to make you feel all blue Ester when you walk in the room everybody turns to look at you

## Chorus

And that night when I called you I was being young And the way I tried to win you I was being young, I was being young

Ester why can't you talk to me
Why can't you look at me
Why can't sit with me
Ester with your lips all full
With your heart all full, is there room for two

# Chorus

And that night when I called you I was being young And the way I tried to win you I was being young, I was being young
