

Elefant, Static On Channel 4

STATIC ON CHANNEL 4

Moon and stars above us shine

Everybody knows you're mine

Static on the channel 4

Television radio, hold me close when you are cold

Now I've got to get us home, everybody knows you're stoned

Chorus

And when you hear me calling

You will turn away and see me standing there

Waving my old colors, lifting up my arms

And you will understand

Kiss me on the lips again

Millions are just tuning in

Sattelites begin to spin

Listen close and let me in

Chorus

And when you hear me calling

You will turn around and see me standing there

Waving my old colors, lifting up my arms

And you will understand

You will understand
