

Elemeno P, Ohio

Say o-oh o-oh o-oh in Ohio
I'm not the only one in denial
Enough is enough
You shouldn't let it go

Compassion can wait in this state of panic
It's happen again, again out of habbit
Delight of the south, silver spon
In your mouth, is how it goes

We're sick and tired of cowboys
White redeo
The more I learn the less i like if
The man says so, best let it go

Oh no the sky has fallen down
You're all alone, you're all alone
Yes sir, no sir, you sir let us down,
You're all alone, you're all alone

Say o-oh o-oh o-oh in Ohio
I'm not the only one in denial
Enough is enough
You shouldn't let it go

So step up step up step up of you've hat it
Light up, light up, light up if you're
Frantic
Is this ain't enough
Well it's safe to say we're smoked

We're sick and tired of cowboys
White redeo
The more I learn the less i like if
The man says so, best let it go

Oh no the sky has fallen down
You're all alone, you're all alone
Yes sir, no sir, you sir let us down,
You're all alone, you're all alone

We got V to the E to the T to the O
Is how it goes
We got guns, we got cash
And we gonna make you dance
(x4)

Some sacrifice, the price of false
Security
We live and die, to prop up your
Economy
You're living blind, blinded by immunity
Well let go, oh no
