

Elena Gheorghe, The Balkan Girls

My girls take me for a ride
Ready to party and looking so fine
I wonder if, beyond this
There could be something better
Cause I feel so good tonight
Dont want to end this night
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
My hips are ready to glow
This record is so hot and I have so much to show
Ill find a boy for a kiss
Who knows, maybe, hell be my prince
I wonder if, beyond this
There could be something better
Cause I feel so good tonight
Dont want to end this night
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
(You gotta live your life) If you wait to find out
(Live your life) What love is about
(Live your life) And if your a lonely baby
(You gotta live your life) Just open your mind
(Live your life) Your one of a kind
(Live your life) You gotta live your life
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
The Balkan girls they like to party
Like nobody, like nobody
(The groovy light will shine all night)
