

Eleventy Seven, Here With Me

Theres a whisper in the air you breathe
Underneath a sky tonight
Theres a peice of you
Inside my heart
That runs too deep to describe
And your so much more then Wonderful
So much more then i can see
And i could spend forever hoping
You'd be here with me.
Here with me.

When the world is me so ended
with nothing left to say
Theres an Angel in your voice
That tells me Everything OK.

And your so much more then Wonderful
So much more then I can see.
And i could spend forever hoping
You'd be here with me.
Here with me (x4)

And your so much more then wonderful
so much more then i can see
and i could spend forever hoping
you'd be here with me.
(x2)

Here with me
