

Eli, You and I

When I'm here, you can be yourself
when I'm here, to wake you up
every day
I'm next to you, my love, feel free
that you may draw courage in me.

I will make brighter your path of life
with all tenderness from my heart
I will never let you down
I'll be forever by your side...

Always forever here and now
Always forever you and I....(repeat)

You'll give me power, peace and love
shining together like stars above
no need to fear, don't be afraid
now everything we do make sense!

Always forever here and now
Always forever you and I....(repeat)

I'll bring happiness to your world
and you wouldn't feel lonely anymore.
I'll bring happiness to your world
and we'll never be lonely anymore!....

Here and now...
You and I.....

Always forever here and now
Always forever you and I....(repeat)
