

Eli Young Band, When You Come Down My Way

When you come down my way here I hope you stay
Maybe for a while, not just a day, yeah
When you come down my way.....

I haven't seen you in so long, there's a lot to get caught up on
Pull up a chair, pour a drink that's strong
I haven't seen you in so long.....

When you come down my way leave behind all those rainy days
You know I love to see your face every chance I get.....

I hear you're doing fine you went to live your life and I lived mine
You've got friend if life gets unkind
I hear you're doing fine.....

When you come down my way leave behind all those rainy days
You know I love to see your face every chance I get.....

****guitar solo****

You can always count on me if there's anything you need
Someone to talk to or just a soul to feed
But, you can always count on me.....

When you come down my way leave behind all those rainy days
You know I love to see your face every chance I get.....
