Elisa, Together (Soundtrack Live)

Together, here we are, we're boy and girl, we walk alone Together moving like clouds
Together billions the soldiers of love in the dark
Together till one will see the light
All the way alone, alone, alone, alone
But together we'll always want to be, yeah

Do you wanna keep safe and keep control Just stay rich with your money and decide for it all? Do you wanna keep safe and keep control Just stay rich with your money and decide for it all? Do you?

Together the bullets fly, they're just like birds in the sky Together we're both paralyzed Together, and drop by drop one by one till water falls If it's a game we're supposed to know we're playing How come some don't know? Don't know? Don't know? Don't know? And together is all they need to be, oh yeah

Do you wanna keep safe and keep control Just stay rich with your money and decide for it all? Do you wanna keep safe and keep control Just stay rich with your money and decide for it all? Do you?

Do you wanna keep safe and keep control You stay rich of your money and decide for it all? Do you wanna keep safe and keep control You stay rich of your money and decide for it all? Do you?

Together, so here we are, we're boy and girl and we walk alone Together we're moving like clouds

Do you wanna keep safe and keep control
Just stay rich with your money and decide for it all?
Do you wanna keep safe and keep control
Just stay rich with your money and decide for it all?
Do you wanna keep safe and keep control
Just stay rich with your money and decide for it all?
Do you wanna keep safe and keep control
Just stay rich with your money and decide for it all?
Do you?

Together Together Together Together
