

Elissa, Do You Love Me

I, I've got this love inside of me
Its so strong baby can you see
Through good and bad I'll be by your side
Just take my hand I'll be yours
Tell me that you want me, never let me go
Tell me that you need me, baby don't go slow
I have never felt like this before
Just show me baby, can't take it no more

Chorus:

Show me how you love me, baby do you love me
Hold me in your arms tonight
Show me how you love me, honey do you want me
When I'm with you it feels so right

In my heart you were the one
Falling in love was so much fun
I never knew love would be like this
You took my heart, your the very first
Tell me that you want me, never let me go
Tell me that you need me, baby don't go slow
I have never felt like this before
Just show me baby, can't take it no more

Show me how you love me, baby do you love me
Hold me in your arms tonight
Show me how you love me, honey do you want me
When I'm with you, you are mine

Chorus (2x)
