

# Ella Knox, Child's Play

Let's ride... Carnival horses to the ends of all the worlds  
We could live like kings and queens and go to war for all our dreams..

Cause I've got you  
You've got me  
In our love we're flying free  
I've got you  
You got me  
We're flying free...

Here's to never growing up... No matter what their gonna say.  
Come what may... We never cared anyway..  
Here's to never growing up... No matter what their gonna say  
Come what may... Nothin could tear us away..  
We got love.. We got love.. We got love..  
We got love.. We got love.. We got love...

Like Child's Play..

Let's drive go carts through the moonlight til' we're stained by the sunshine...

You got those candy colored cause we been getting' fuckin high.. But all those fairy tales aside we

Cause I've got you  
You've got me  
In our love we're flying free  
I've got you  
You got me  
We're flying free...

Here's to never growing up... No matter what their gonna say.  
Come what may... We never cared anyway..  
Here's to never growing up... No matter what their gonna say  
Come what may... Nothin could tear us away..  
We got love.. We got love.. We got love..  
We got love.. We got love.. We got love...

Like Child's Play..

You stole my heart...  
Like a bully stole my lunch box...

You hold my hand..

You understand..

I want you to know you're my best friend..

I want you to know you're my best friend..

I want you to know you're my best friend  
I hope we play pretend all the way to end...

Here's to never growing up... No matter what their gonna say.  
Come what may... We never cared anyway..  
Here's to never growing up... No matter what their gonna say  
Come what may... Nothin could tear us away..  
We got love.. We got love.. We got love..  
We got love.. We got love.. We got love...

Like Child's Play..
