

# Elle King, Wild Love

Love is a kiss  
Love is a risk  
Love might be our redemption, oo!  
Love is on time  
Love is my blind  
Love might be our addiction

Let's make some noise  
Give it away  
You call me crazy  
That's why you stay

Take off to no love  
Doesn't it  
Maybe we should love for the fun of it?  
Baby, for the fun of it  
Love you all day  
/2x

Wild love  
You give me  
/2x  
I really wanna love you all day

Love is a cure  
Love is for sure  
Ove might keep us here together  
Might be the one  
Jumping a gun  
But I feel like love can last forever  
So lobe again and again

Let's make some noise  
Give it away  
You call me crazy  
That's why you stay

Take off to no love  
Doesn't it  
Maybe we should love for the fun of it?  
Baby, for the fun of it  
Love you all day  
/2x

Love might be our redemption
