

Ellie Goulding, Army

I know that I mess up
But you never let me give up
All the nights and the fights and the blood and all the break ups
You're always there to call up
I'm in pain, I'm a child, I'm afraid
But, you understand
Like no one else can
But know that we don't look like much
But no one fuck it up like us

Sixteen and you never even judge me
Matter of fact always thought you were too cool for me
Sitting there in the caravan
All the nights we've been drunk on the floor
But you understand
Yeah, like no one else can

We both know what they say
But they don't stand a chance because

When I'm with you
When I'm with you
I'm standing with an army
I'm standing with an army
When I'm with you
When I'm with you
I'm standing with an army
I'm standing with an army

Dark times
You could always find the bright side
I'm amazed by the things how you would sacrifice
Just to be there for me
How you cringe when you sing out of tune ooh

But, it's everything
So don't change a thing

We both know what they say about us
But they don't stand a chance because

When I'm with you
When I'm with you
I'm standing with an army
I'm standing with an army
When I'm with you
When I'm with you
I'm standing with an army
I'm standing with an army
