

Ellie Goulding, Mirror

I look in the mirror
And I try to see myself
We ever look terror
From the games I played so well
I try to see clearer
I try to forget the thoughts I started
I try to be nearer

To where you are
To where you are

Are we star crossed lovers
Did I really want you gone
If I'm really a winner
Where do these demons come from?

I was the girl who was on fire
I was the girl who was on fire
Only a bird could get much higher
(I look in the mirror)
'Cuz I was the girl who was on fire
