

Elliott Smith, Alphabet Town

Alphabet City is haunted
Constantina feels right at home
She probably won't say you're wrong
But you're already wrong
You're already wrong
And you threw up whatever she shot down
Said show me around this alphabet town
Said show me around
There's a name you keep repeating
You got nothing better to do
And you're with someone who'll hear you say it
And just not mind
Her hand on your arm
Her hand on your arm
She put her hand on your arm
And told you her name you can't pronounce
I'll show you around this alphabet town
I'll show you around this alphabet town
I know what you are
I just don't like it
I won't say you're wrong
I know it's what you want
And it's what I want
So let's go out
I'm ready to go out
I'll show you around this alphabet town
I'll show you around this alphabet town
